### “Park De Rietlanden”

The community of Amsterdam planned a public park on top of the underground garage which belongs to the office buildings that are also on top of the roof. These office-buildings house different television companies. The green roof with lawn, trees and different playgrounds in a public space needed to be build with the highest quality and very durable. This was one of the reasons the project was made by Van der Tol together with ZinCo Benelux.

**ZinCo Benelux** is a supplier and adviser of ZinCo Green Roof Systems in Belgium, Luxembourg and the Netherlands. The ZinCo Green Roof Systems provide clients with complete system build-ups for every type of Green Roof. The product range includes: extensive Green Roofs with rockery type plants, flourishing roof gardens as well as Green Roofs in combination with walkways and driveways.
